Authorities tell us that the couple may have been living in this house for what could have been weeks. They made regular trips to local convenience and grocery stores. We're also told a bag was found inside the house containing very large sums of money, money allegedly obtained from the many robberies the couple staged across the southland. Authorities believe in the rush to leave, it may have been accidentally left behind. Police are now worried that, low on funds, the couple could attempt additional robberies. After last night's fatal shootout with the police, they are believed to be armed and extremely dangerous.

Dean fires his cigarette.

DEAN
